

East Land Quality Forum Update

June 2011

Alison Hukin

What a Year!

- **The East Land Quality Forum was established in March 2010 as a dedicated voluntary body offering free seminars for land quality practitioners within the East of England**
- **We now have 290 members including members from Scotland, Wales, Nigeria and America**
- **This is our third event:**
 - **September 2010: Brownfield Regeneration in Challenging Times**
 - **March 2011: Remediation: ‘the good, the bad and the ugly**
 - **June 2011: Waste Lands: An Overview of Sustainable Waste Management in Remediation**

What a Year!

- **We have been financially sponsored by a number of companies:**
 - **Royal Haskoning, Regenesis, Northampton University and Hydrock have sponsored events;**
 - **AGB Environmental Ltd have sponsored the website; and**
 - **EPS have sponsored the banners.**
- **People have also given up there time and support including the steering group, speakers and members attending**
- **Members have provided good feedback which has helped to steer the events and a slim version of the feedback is available on our website**

(Presentations from previous meetings also available.)

Welcome!

The East Land Quality Forum (ELQF) was established in March 2010 as a dedicated voluntary body offering free seminars for land quality practitioners within the East of England.

The aim of the Forum is to allow all those with a professional interest in land quality in the East of England to come together on a quarterly basis. The Forum will meet, present and receive interesting papers, network in an open and friendly environment and collectively support work towards continuously improving our region's land quality. The Forum has four main aims:

- **E**ncouraging dialogue
- **L**earning and dissemination of good practice and knowledge
- **Q**uality partnerships are developed
- **F**uture innovation promoted

There are no joining fees, no membership fees, just the generosity of members' time that will make this Forum happen.

Please browse the pages on this website to find out about the events that have taken place, those that are proposed in future, how you can join the group or take part, and who you can contact to find out more.

We now have a website!

We now do online
Registration!

We are trying to create
membership numbers so
registration becomes
easier

Future

- **We are still going to provide free events with sponsorship**
- **We are planning 3 events next year (October, March and June)**
- **We are planning themed days: Regulation, Groundwater, Human Health and a Site investigation/landfill day**
- **We are varying the location of events: Peterborough, Bury St Edmunds and Newmarket**
- **We are trying to understand members core skills to try and tailor the days**

Future

- **Sponsorship is crucial. The benefits are:**
 - Promotion of sponsor name or logo on publicity for the event
 - Name and logo to appear on conference handouts and folder
 - Inclusion of an insert in event delegate pack
 - Exhibition stand or posters depending on venue
 - Logo and weblink to sponsors site on our events page on the ELQF website for at least a year

- **Cost is £1,000 - £2,000 depending on the venue. Joint Sponsorship is available.**

Today

- Comfort
- Please fill the feedback form
- Thank you to the speakers and sponsors for today
- Hope you have a great day!
