

# East Land Quality Forum

## What Do (Land Quality) People Do All Day?

### Early Careers, Chartership and Professional Development in Contaminated Land

10<sup>th</sup> February 2026

South Cambridgeshire Hall, Cambourne Business Park,  
Cambourne CB23 6EA

The East Land Quality Forum was established in 2010 as a dedicated voluntary networking body offering free seminars for land quality practitioners within the East of England. The aim of the Forum is to allow all those with a professional interest in land quality in the East of England to come together.

We hope this and future meetings will be of interest to all professionals involved in land quality including: regulators, developers and their agents, environmental consultants, planning officers, legal advisers, contractors and technology providers.
